Product	Description	Product type	Raw material	Grammage range	Typical application	Mills
STRATO | Liner *Testliner 3*	A recycled liner designed to deliver consistent strength and print performance for corrugated packaging.	Testliner	100% recycled fibre	80–210 g/m²	Corrugated box outer layers	Bruck (AT); Golbey (FR)
STRATO | Liner *Testliner 2*	A reinforced recycled liner suitable for corrugated applications requiring enhanced surface and strength properties.	Testliner	100% recycled fibre	90–210 g/m²	Heavy-duty corrugated packaging	Bruck (AT)
STRATO | Fluting	A lightweight recycled fluting designed for stable performance and efficient converting.	Fluting	100% recycled fibre	70–210 g/m²	Corrugated board medium	Bruck (AT); Golbey (FR)
STRATO | Fluting *High performance*	A high-performance lightweight fluting designed to combine strength, runnability and stability in converting.	High-performance fluting	100% recycled fibre	115–150 g/m²	High-strength corrugated board	Bruck (AT)
STRATO | Dual	A versatile recycled paper suitable for use both as liner and fluting in corrugated board.	Dual-use liner/fluting	100% recycled fibre	80–135 g/m²	Liner and medium	Golbey (FR)
